ABSTRACT

The 1976-77 Lutheran Church--Missouri Synod--statistical survey of its elementary schools (through grade eight) reveals an increase in the number of schools, sponsoring congregations, pupils, and teachers, as well as in per pupil costs, construction expenses, and salaries. This information is presented in 45 tables. (Author/PGD)

LUTHERAN ELEMENTARY SCHOOLS

of

THE LUTHERAN CHURCH—MISSOURI SYNOD

This Report

The basic data contained in this report is mostly about the elementary school system of the LCMS in the United States and Canada. A few tables report a summary for South America, for secondary schools, as well as data of other Lutheran denominations.

Elementary statistics usually include the prekindergarten grades through grade eight. Ninth grade enrollments are included in the elementary reports if the reporting school offers the ninth grade as its terminal grade.

A detailed statistical report concerning the Community Lutheran high schools operated by congregations of the LCMS is available from the Board of Parish Education.

Statistical Considerations

Statistics are important, they can serve as benchmarks, as a barometer that can only be read in conjunction with many other factors. One must remember that a Lutheran school's goals and purposes are not just measured by commitment and statistics. But the intensity of feeling toward those goals as well as the statistical data are crucial factors that need to be involved in the measurement of the attainment of goals.

When attempting to collect data one is always at the mercy of those who must report the data requested. All school statistics are quite difficult to obtain, thus the following data is not complete. According to our records 120 schools (96 of them early childhood programs) did not submit reports. Thus approximately 500 teachers and nearly 10,000 pupils are not included in the following statistical summary. Schools of congregations that have left the Synod since reporting their statistics are included.

All of the following financial figures reflect the previous school year, 1975-1976. All references to staffing, enrollment, and so forth were reported as of the September 1976 census date. In a number of instances comparisons with the previous school year are also indicated.

- + Number of Schools: 1266 (up 39) An additional 120 schools did not complete a statistical report. Sixteen schools closed, eight were early childhood programs. Over 90 new schools reported. Five schools reorganized. The total of known existing schools is 1386, the highest total on record.
- + Number of Sponsoring Congregations: 1658 (up 39) Over $\frac{1}{4}$ of the Synod's congregations are involved in the sponsorship of some type of Lutheran school. Parents of those supporting congregations enroll 59.5% of their eligible children and about $\frac{1}{3}$ of all the children in the Synod. Some congregations made significant gains this year in the percentage of eligible children enrolled in their schools. Much more attention needs to be expended on that particular target group.
- + Number of Pupils Enrolled: 153,044 (up 921) Enrollment increases occurred at the prekindergarten through third grade levels. When comparing the enrollment of last year's first grade with this year's second grade, last year's second grade with this year's third, etc., it reveals an average loss of 500 pupils per grade. This is most noticeable as children enter the first, second, fourth, seventh, eighth, and ninth grades. At certain of these levels this is understandable since the previous grade level is the terminal grade level for many congregations' programs. Due to space limitations 7,835 pupils were declined enrollment, an increase of 7%. Had all schools reported the enrollment would total 163,000, an all time LCMS record.
- + Pupils' Church Membership: Of Lutheran congregations operating schools -- 58.3%; Of other LCMS congregations -- 5.5%; Of other Lutheran churches -- 3.7%; Of nonLutheran churches -- 25.5%; Of no church -- 7%.
- These figures are in keeping with a general pattern evident over a number of years revealing that a slightly higher percentage of children from outside the membership of the school-operating congregations are enrolling each year (approximately 1.5%).
- ✓ + Pupils' Race and/or Ethnic Group: Black -- 9%; White -- 87.9%; American Indian -- .2%; Mexican American -- .9%; Puerto Rican -- .2%; Cuban -- .2%; Oriental -- 1.2%; Others -- .4%. The nonWhite enrollment has increased 1% each year over the last two years.
- + Number of Administrators and Teachers: 7438 (up 144) Included in this total are 1636 part-time teachers. The teaching force is augmented by 3933 teacher aides who work nearly 17,000 hours per week. Approximately 14.2% of the aides receive some remuneration for their work. Nearly 80% of all degreed personnel are synodically educated, and approximately 50% of all principals have a masters or more advanced degree. Had all schools reported the number of teachers and administrators would total 7938, establishing a record number teaching force for the fifth successive year.
- + Costs Per Pupil: Average daily membership -- \$575 (up \$49, 9.3%); Average daily attendance -- \$607 (up \$57, 10.4%). Slightly over $\frac{1}{4}$ of the income for schools is derived from tuition and nearly $\frac{2}{3}$ from congregational budgets (church contributions). Nearly \$500,000 comes from District subsidies, and over \$2.5 million worth of pupil services and materials from state and federal aid.
- + New Building - Major Remodeling: \$10 $\frac{3}{4}$ million (up \$1 $\frac{1}{2}$ million)

The continuing and increased dollars spent on brick, mortar, and glass give evidence that many congregations continue to place a high priority upon the Christian nurturing phase of their mission and ministry.

+ Salaries (including housing and Concordia Plans): Principals -- \$12,833 median; Fulltime teachers -- \$9,164 median (up 7.5% for teachers and 7.8% for principals)

Of all principals and full-time teachers 20.7% receive over \$12,000 (up 5.6%), 38.4% receive over \$10,000 (up 6.8%), 66.7% receive \$8000 (up 10.3%). Nearly 75% of the full-time teaching personnel receive over \$7500. Committed Lutheran elementary teachers dedicate their time and talents to this ministry for less salaries than their public counterparts are remunerated which has contributed toward the support of Lutheran schools in an annual amount equivalent to over \$15 million.

Salaries of principals are higher than those of teachers due to increments for administrative responsibilities. The average salaries for female teachers are at times lower than those for males because the salaries for males often include pay for extra responsibilities and parish activities. Male teachers, on the average, have more years of teaching experience as well as a higher average of advanced degrees. More males because of their out-side-of-school responsibilities more often have the option of a 12 month salary. Many salary schedules do establish equal base pay for male and female teachers. The Synod has urged all congregations, whether mandated by law or not, to apply the Title IX to their personnel policies.

The first four reports included in the following series of tables also indicate the growth of the secondary schools of the LCMS as well as a general growth in the Lutheran schools of other Lutheran bodies.

The report provides each district with an opportunity to compare their district statistics with other districts and the national totals. The District Code Numbers are the following:

The Future

What about Lutheran schools, today and tomorrow? Will people continue to want this alternative for their children's education? Will parents, children, teachers, and the Lutheran churches continue to want to support this ministry?

Certainly! Provided we continue to have schools that are a distinctive part of the church, continuing to be about their business of defending and promoting the Christian faith; schools which provide a quality education along with moral and spiritual development.

As we ask for forgiveness for our yesterdays, we also count the blessings of today, and look forward in hope to tomorrow for Jesus Christ "is able to do exceedingly abundantly above all that we ask or think, according to the power that worketh in us." Ephesians 3, 20.

*Students and candidates

Note the inclusion of candidates in the "students" column. In the 30's this meant inclusion of a large number of theological candidates, with the result that available teacher candidates received no calls, but had to be placed temporarily. In the late 40's the number of candidates is extremely small and it means only a few teacher candidates or older teachers are serving in temporary positions. Beginning 1950 the "student" designation was discontinued.

Note: Up to 1960, teachers were placed once each year. From 1961 to 1963 they were placed twice a year, in spring and in midyear. For these years the totals are computed for the school year. Beginning with 1964 (three placements) the totals are computed for the calendar year. For the year 1964 and following, the first three figures in each column are for the spring, summer, and fall placements, in that order. The last figure in each column is the total of the three previous figures.
